

Specialist sound, light & video systems integrators

Contact us	Conference, banqueting & event rooms	Bars & restaurants	Reception & communal areas
Late night venues	Systems control & management	Relaxation & fitness	In-room entertainment

CGA Lighting Services

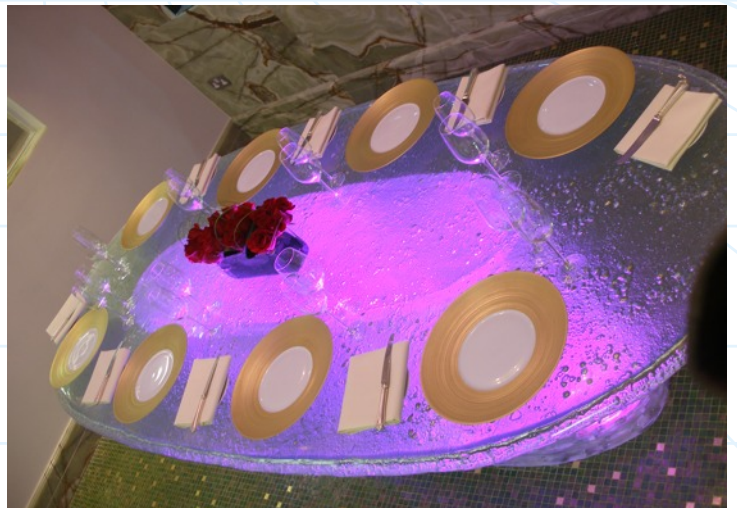

Colour can play an important part in helping to create a mood that's just right whatever the occasion. It's long been scientifically proven that different colours and even different shades of the same colour can be used to stimulate very different emotional responses and colour is therefore a powerful tool in helping to deliver a specific desired ambience or to reinforce a Brand.

CGA Integration has provided many clients with sound, light and video system integration which has helped them to create different environments in the same area at different times of day or on different occasions. Colour like sound can help to completely transform a venue and carefully designed, expertly installed LED lighting can help to completely transform the ambience of a room or even the outside of your venue.
